

SPECIAL REPORT
GAZA UNDER FIRE

Israel's Criminal Assault on the Occupied State of Palestine

OVERVIEW:

- **Statistics of the Seventeenth day of the Israeli aggression against the Gaza Strip (July 8th – July 24th).**
- **Gaza Water Crisis Increased by Israeli Bombardments**
- **Names of Palestinian Killed since Israel's attack on Gaza Strip Between: 13th June – 24th July 2014 (Sources: Ministry of Health).**

The Israeli ground invasion in Gaza continued, injuring at least 4,620 people and taking the lives of over 43 Palestinians between midnight and the time of this report. The effects of Israeli bombardments can be seen in the lack of access to basic services whereby at least 1,200,000 Palestinians had their electricity and water systems interrupted. Hospitals and medical centers continue to be targeted by Israeli forces as well as the Palestinian Civil Defense (firefighters). Over 140,000 people have been forcibly displaced¹.

Statistics of Seventeen Days of Israeli Aggression Against the Gaza Strip²
July 8th 00:00 AM – July 24th 12:00 PM

- Palestinians killed – 738
- Palestinians Injured – 4,620
- Demolished homes – 3,175
- Partially Demolished Homes – 2,655
- Damaged Homes – 18,200
- Schools Damaged – 116
- Damaged Hospitals and Health Centers – 5 hospitals and 6 clinics. 13 health facilities have been closed.
- Ministries Partially Damaged – Five³

¹ The number is believed to be higher since it counts mainly people requesting the UN of humanitarian support. There are also civil society and church organizations hosting internally displaced people.

² Sources: Palestine Monitoring Group and Palestinian Government Media Center

³ Ibid.

- Ministries with Major Damages – Three⁴
- Attacks against Religious Sites – Three mosques destroyed; 64 mosques partially damaged⁵. Two Churches Partially Damaged.

Over 140,000 people have been displaced –1,200,000 people have been affected by the destruction of electricity, water and waste water infrastructures.

- **Gaza Water Crisis Increased by Israeli Bombardments**

Indiscriminate bombardment the occupying power Israel, against civilian areas in the Gaza Strip, has dramatically affected the distribution of services. Currently, over 1.2 million out of 1.7 million people in the Gaza Strip, have had their water and electricity consumption interrupted. Additionally, several areas are flooded with sewage due to Israeli attacks. Israeli bombardment has destroyed several water wells, leaving 15 water wells providing water to Gaza City out of service as well as 6 sewage pumping stations also out of service. During the aggression of 2008/09 (called Cast Lead, Israel had destroyed 11 wells).

Israeli bombardment has been particularly strong in the eastern areas of Gaza, mainly to the east of Salah El Deen Street, where many of the water wells are located. Israeli Forces have targeted Palestinian volunteers repairing the water lines, making it almost impossible to restore service to various Palestinian communities. Bombardment has contaminated most of the available water in Gaza. Before the Israeli aggression, only 21% of the water wells in Gaza met the minimum standards of the World Health Organization (WHO) with just less than 10% of the available water fit for drinking. It is estimated that the current Israeli attacks have significantly reduced those percentages.

Due to Israeli occupation, the theft of Palestinian natural resources and the Israeli blockade, it is impossible for Palestine to manage its own resources, particularly the transfer of water from the West Bank to the Gaza Strip. The Palestine Water Authority has already announced that by 2016, it will not be possible to pump water from Gaza's wells due to its contamination. This pollution of water has increased over the past two weeks. The UN, in its report "Gaza in 2020: A liveable place?" stated that the Gaza Aquifer "may become unusable by 2016 and damage to it irreversible by 2020"⁶

- **Names of Palestinian Killed since Israel's attack on Gaza Strip Between: 13th June – 23th July 2014⁷**

Israeli disregard to the lives of Palestinians have resulted in the killing of hundreds. Instead of learning from previous experiences, some countries gave green light to Israeli forces to bombard and invade the Gaza Strip. The international community has the legal and moral responsibility to protect the Palestinian population living under Israeli occupation and to hold Israel accountable regarding its severe violations of the international humanitarian law. Lack of accountability will continue to fuel Israeli atrocities and crimes. Lack of international action will continue to increase the list of people killed.

**THE ANSWER TO ISRAEL'S SECURITY IS NOT THE COLLECTIVE
PUNISHMENT OF PALESTINIANS**

Israel is killing Palestinian civilians with impunity granted by the International community. Israel should be held responsible for its continuous aggression against the Palestinian people, particularly in the Gaza Strip.
